

Anne Schuth

CURRICULUM VITAE

anne.schuth@gmail.com · anneschuth.nl · github.com/anneschuth · linkedin.com/in/anneschuth · Google Scholar

I work on AI and Engineering for the Dutch Government, currently as Engineer in the Bureau Architectuur Digitale Overheid (BADO), where I primarily work on [RegelRecht](#), an exploration into machine-executable legislation. I also run [Axolotl Systems](#), where I provide ML engineering and platform consulting services one day per week alongside my government work, including working as ML Engineer at [Ditto](#). I hold a [PhD](#) from the University of Amsterdam where I studied self-learning search engines. My [publications](#) have received over 1735 citations ([Google Scholar](#)); my h-index is 22.

PROFESSIONAL APPOINTMENTS

GOVERNMENT

Bureau Architectuur Digitale Overheid (BADO)

The Hague, The Netherlands

Engineer (Jan 2025 – present)

Engineer in the Bureau Architectuur Digitale Overheid (BADO), primarily working on [RegelRecht](#), an exploration into machine-executable legislation that aims to achieve transparent, unambiguous, and consistent execution of laws.

Ministry of the Interior and Kingdom Relations (BZK)

The Hague, The Netherlands

Engineering Manager - AI Validation Team (Aug 2023 – Dec 2024)

Grew and supported the [AI Validation Team](#) at the Digital Society Department, NL Ministry of the Interior and Kingdom Relations (BZK). A team of engineers, product, UX, focused on building software for AI validation, including the [Algorithm Management Toolkit](#).

INDUSTRY

Axolotl Systems

Utrecht, The Netherlands

Founder & ML Engineering Consultant (2023 – present)

Run [Axolotl Systems](#) one day per week alongside government work, providing ML engineering and platform consulting services. Currently working as ML Engineer at [Ditto](#).

Spotify

Utrecht, The Netherlands

ML Engineering Manager Search (Dec 2021 – Jul 2023)

Machine Learning Engineering Manager, primarily supporting the Search Ranking team. The team consisted of Backend, Data, and Machine Learning engineers responsible for building and running the last stage of Spotify's search platform.

DPG Media

Amsterdam, The Netherlands

Machine Learning Architect (Feb 2021 – Nov 2021)

Focused on the technical aspects of building a large-scale recommendation system spanning all news products and brands; oversaw the technical challenges of about 25 people working on products with a recommender system at their core.

Head of News Personalisation (May 2020 – Feb 2021)

Managed 15 people, divided over 3 teams working on content understanding & search, user understanding, and ranking. Responsible for personalising the news selection across major Dutch and Belgian news titles (Volkskrant, AD, Trouw, Parool, HLN, De Morgen, and many others) owned by DPG Media.

Head of News Data (Oct 2019 – May 2020)

Managed two teams focused on news personalisation and newsroom analytics.

Team Lead - News Personalisation (Aug 2018 – Sep 2019)

Started and led the News Personalisation Team, a group of nine engineers and scientists working on personalisation for major Dutch and Belgian news titles.

Machine Learning Engineer (Mar 2018 – Jul 2018)

Spent the first months developing plans for personalisation across DPG's news brands.

Google AI

London, United Kingdom

Research Scientist (Sep 2017 – Mar 2018)

Worked on conversational recommendation systems for the Google Assistant.

Blendle

Utrecht, The Netherlands

Data Scientist (Feb 2016 – Aug 2017)

Responsible for the learning aspects of Blendle's recommendation engine for journalism, at a New York Times-backed startup that built a platform where users could explore journalism.

ACADEMIC**PhD Candidate** (2011–2016)

Informatics Institute, University of Amsterdam, The Netherlands

Research Topic: Online Learning to Rank for Information Retrieval. Studied how search engines can learn from their users to improve their results. Built the [Lerot](#) framework. Supervised by prof. dr. Maarten de Rijke and dr. Shimon Whiteson.

Software Engineer (2010–2011)

Informatics Institute, University of Amsterdam, The Netherlands

Responsible for crawling, processing, and indexing parliamentary proceedings across the European Union as part of the Political Mashup project.

Teaching Assistant (2010)

ILLC, University of Amsterdam, The Netherlands

Assisted in the Bachelor-level Language Models course; responsible for grading homework and supervising lab sessions.

Support Staff (2007–2010)

Informatics Institute, University of Amsterdam, The Netherlands

Employed by the ILPS group as support staff, working under the supervision of dr. Maarten Marx on collecting, structuring, and indexing political data.

OTHER**Web-master and IT-instructor** (2005–2007)

Learnit BV, Amsterdam, The Netherlands

Responsible for designing, implementing, testing and maintaining innovations for the website of a training company; also instructor for IT-related subjects including basic programming classes.

Assistant Manager (1999–2003)

Minerva Bioscopen, Zaandam, The Netherlands

In the last year of a four-year employment at a medium-sized cinema, responsible for the day-to-day management of the operation, heading a team of approximately 20 people.

INTERNSHIPS AND VISITS

Microsoft Research, Bing

Cambridge, United Kingdom

Research Intern (2014)

Collaborated with dr. Filip Radlinski and dr. Katja Hofmann for 12 weeks on online evaluation of Bing, focusing on bringing interleaved comparisons closer to AB testing. Published a [full paper at SIGIR2015](#).

Yandex*Moscow, Russia***Research Intern** (2014)

Spent 3.5 months in the research team under supervision of dr. Pavel Serdyukov and with Damien Lefortier, working on online learning to rank (bandit) algorithms for freshness ranking.

Yahoo! Labs*Barcelona, Spain***Visiting Researcher** (2012)

Collaborated with dr. Gianmarco De Francisci Morales in the group of dr. Aristides Gionis on integrating a semantic linking project developed at the University of Amsterdam into Yahoo!'s search-logs processing.

EDUCATION

PhD Information Retrieval*University of Amsterdam, The Netherlands (2011–2016)*

Thesis: [Search Engines that Learn from Their Users](#).

Committee: prof. dr. Maarten de Rijke, dr. Shimon Whiteson, prof. dr. Thorsten Joachims, dr. Evangelos Kanoulas, prof. dr. Diane Kelly, dr. Maarten Marx, and prof. dr. Max Welling.

MSc. Artificial Intelligence*University of Amsterdam, The Netherlands (2008–2010)*

Graduated *cum laude*. Thesis: [Tuning Methods in Statistical Machine Translation](#). Won the Dutch prize for best Artificial Intelligence thesis of the year 2010/2011 (KION).

Committee: dr. Christof Monz, dr. ir. Leo Dorst, and prof. dr. Khalil Sima'an.

BSc. Artificial Intelligence*University of Amsterdam, The Netherlands (2004–2007)*

Thesis: [Applied Text Analytics for Comments on News-Articles](#). A revised version was [published](#) and is now cited over 90 times.

Secondary Education*VWO, St Michael College, Zaandam (2000–2003)**Vrije School, Adriaan Roland Holtschool, Bergen (1997–2000)***TEACHING**

STUDENT SUPERVISION

I (co-)supervised the following students and trainees.

2024-2025	Renate Burema , Intern (internship at Ministry of the Interior and Kingdom Relations). LLMs Benchmarks for The Netherlands. Co-supervised with Christopher Spelt. Published at the Language Resources and Evaluation Conference (LREC 2026).
2024	Guusje Juijn , Rijks I-Trainee (internship at Ministry of the Interior and Kingdom Relations). Co-supervised with Christopher Spelt.
2023	Thilina Rajapakse , PhD Student at the University of Amsterdam (internship at Spotify). LLMs for Search. Co-supervised with Claudia Hauff.
2022-2023	Samarth Bhargav , PhD Student at the University of Amsterdam (internship at Spotify). Tip-of-the-Tongue Retrieval for Music. Co-supervised with Claudia Hauff. Published at SIGIR'23.
2021	Astrid Weijts , MSc AI at the Vrije Universiteit Amsterdam (internship at DPG Media). Breaking the Filter Bubble.
2019-2020	Henning Bartsch , MSc AI at the University of Amsterdam (internship at DPG Media). Neural Recommendation. Co-supervised with Lucas de Haas, Joris Baan, Maartje ter Hoeve.
2019-2020	Tom Sweers , MSc CS at the Radboud University Nijmegen (internship at DPG Media). Timing Push. Co-supervised with Lucas de Haas.
2019	David Vos , BSc AI at the University of Amsterdam (internship at DPG Media). Personalized Weekly Newsletters. Co-supervised with Lucas de Haas, Harrie Oosterhuis.

- 2019 [Pieter Zalis](#), MSc Data Science at the University of Amsterdam (internship at DPG Media). News Personalisation. Co-supervised with Lucas de Haas, Christof Monz.
- 2018-2019 [Chia-Lun Yeh](#), MSc AI at the Delft University of Technology (internship at DPG Media). Bias Detection. Co-supervised with Babak Loni, Nava Tintarev. Published at SEMEVAL'19, .
- 2018-2019 [Joris Baan](#), MSc AI at the University of Amsterdam (internship at DPG Media). Explaining Summarization. Co-supervised with Marlies van der Wees, Maartje ter Hoeve, Maarten de Rijke. Published at FACTS-IR'19, .
- 2017-2018 [Maartje ter Hoeve](#), MSc AI at the University of Amsterdam (internship at Blendle). Explaining Rankings. Published at FATREC'17, .
- 2015-2016 [Claudia Minardi](#), MSc AI at the Vrije Universiteit Amsterdam. Master thesis.
- 2015-2016 [Jeffrey Kuiken](#), BSc IK at the University of Amsterdam (internship at Blendle). Effective Headlines of Newspaper Articles in a Digital Environment. Published at Digital Journalism.
- 2014-2016 [Harrie Oosterhuis](#), MSc AI at the University of Amsterdam at University of Amsterdam. Online learning to rank (Honours program). Published at WSDM'16, ECIR'16.
- 2014-2015 [Spyros Michaelides](#), MSc AI at the University of Amsterdam. Comparing Living Labs with Lerot.
- 2013-2014 [George-Viorel Visniuc](#), MSc AI at the University of Amsterdam. Understanding User Behavior through Search Log Analysis.
- 2012-2013 [Hanne Nijhuis](#), MSc AI at the University of Amsterdam. Active Online Learning to Rank for IR.
- 2011-2012 [Bart de Goede](#), MSc IK at the University of Amsterdam. Sustainable Questions. Published at SIGIR 2012 Workshop on Time-aware Information Access.

COURSES AND TUTORIALS

LiLa 2016: ECIR 2016 Tutorial

Year: 2016 · [Living Labs for Online Evaluation: From Theory to Practice](#)

Information Retrieval 2

Master Artificial Intelligence, University of Amsterdam

Years: 2014–2015. Project on “Online Learning to Rank”. Published a [short paper at SIGIR2015](#).

Information Retrieval 1

Master Artificial Intelligence, University of Amsterdam

Years: 2014–2015. Lectures on Online Evaluation, Online Learning, and projects on Multileaved Comparison Methods.

Information Retrieval

Master Artificial Intelligence, University of Amsterdam

Year: 2013–2014. Lecture 7 on “Online Learning to Rank”.

Advanced Information Retrieval

Master Artificial Intelligence, University of Amsterdam

Year: 2011–2012. Invited lecturer.

Language Models

ILLC, University of Amsterdam

Year: 2009–2010. Teaching Assistant. Bachelor-level course on Hidden Markov Models and language modelling.

Recommender Systems

Hogeschool Rotterdam

Year: 2019. Invited lecturer.

Search and Recommendations at Blendle

Radboud University, Nijmegen

Year: 2016. Invited lecturer.

PROFESSIONAL ACTIVITIES

LEADERSHIP & ORGANIZATIONAL ROLES

Advisory Roles (2023-2026)

- Member [AlgoSoc](#) Stakeholder Advisory Board (2023-2026)
- Member Professional Fields Committee (Beroepsvelden Commissie), [Computer Science Program](#), Hogeschool [Rotterdam](#) (2024-2026)

Workshop & Conference Organization (2012-2019)

- Organizer [DIR2019](#) (2019)
- Co-organizer [TREC OpenSearch](#) (2016-2017)
- Co-organizer [CLEF LL4IR](#) (2015-2016)
- Proceedings Chair [WSDM2016](#) (2016)
- Moderator [PhD's on Science 2.0](#) (2015)
- Co-organizer [CLEF Living Lab & LLC2014](#) (2014)
- Treasurer [ECIR2014](#) (2013-2014)
- Volunteer [CIKM2013](#) (2013)
- Co-organizer [INEX2012](#) Linked Data Track (2012)

Community Organization (2014-2015)

- Co-organizer [SEA Meetup](#) (2014-2015)

University Leadership (2012-2014)

- Chair [FNWI PhD Council](#) (2013-2014)
- Member [FNWI PhD Council](#) (2012)
- Member [UvAPro](#) (2012-2013)

PROGRAM COMMITTEE MEMBERSHIP

SIGIR (2015-2023)

- PC member [SIGIR2023](#) Tutorials
- PC member [SIGIR2022](#) Full Papers & Tutorials
- PC member [SIGIR2018](#) Full Papers, Short Papers & Demos
- PC member [SIGIR2016](#) Full Papers & Short Papers
- PC member [SIGIR2015](#) Short Papers

WSDM (2016-2018)

- PC member [WSDM2018](#)
- PC member [WSDM2017](#)
- PC member [WSDM2016](#) (outstanding reviewer award)
- PC member [WSDM2016](#) [Workshop on Query Understanding and Reformulation](#)

RuSSIR (2015-2020)

- PC member [RuSSIR2020](#)
- PC member [RuSSIR2018](#)
- PC member [RuSSIR2017](#)
- PC member [RuSSIR2016](#)
- PC member [RuSSIR2015](#)

CLEF (2015-2016)

- PC member [CLEF2016](#)
- PC member [CLEF2015](#) [Conference](#)
- PC member [CLEF2015](#) [Labs](#)

DIR (2015, 2018)

- PC member [DIR2018](#)

- PC member [DIR2015](#)

WWW / TheWebConf (2018-2019)

- PC member [TheWebConf 2019](#) User Modeling, Personalization and Experience track
- PC member [WWW2018](#) Posters

Other PC Roles

- PC member [AIOG2026](#) AI & Open Government Workshop, co-located with ICAIL 2026
- PC member [ORSUM2023](#)
- PC member [CIKM2015](#)
- PC member NTCIR-12 [EVIA2016](#) Workshop
- PC member [ECIR2014](#) Demo Track
- PC member [INEX2012](#) Linked Data Track

REVIEWING ACTIVITIES

Conference Reviewing (2013-2023)

- Reviewer [SIGIR2023](#) Short Papers
- Reviewer [IUI2019](#) (2019)
- Reviewer [CIKM2018](#) (2018)
- Reviewer [ICTIR2015](#) & [WWW2015](#) (2015)
- Reviewer [CIKM2013](#), [DIR2013](#), [SIGIR2013](#), [WSDM2013](#) (2013)

Journal Reviewing (2013-2019)

- Reviewer [TOIS](#) (2019)
- Journal Reviewer [IEEE Transactions on Services Computing](#) (2014)
- Journal reviewer [IPM](#) (2013)

GRANTS

- 2018 — Google DNI, *De Volkskrant Guide to Life*. €500K
- 2016 — NWO KIEM project on Semantic News Search. €15K
- 2015 — Microsoft Azure Subscription to host the Living Labs API
- 2015 — ELIAS Grant to maintain and develop the Living Labs API. €10K
- 2015 — ELIAS Workshop Grant to organize a workshop at CLEF2015 in Toulouse, France. €10K
- 2015 — CLEF Student Grant for CLEF2015 in Toulouse, France. €300
- 2015 — CLEF Travel Grant for CLEF Organizers Meeting at ECIR2015 in Vienna, Austria. €750
- 2015 — ACM Travel Grant for SIGIR2015 in Santiago, Chile. \$2K
- 2014 — ELIAS Exchange Grant to visit Yandex in Moscow, Russia. €2K
- 2013 — ACM Travel Grant for CIKM2013 in San Francisco, USA. \$600
- 2012 — ELIAS Short Research Visit Grant to visit Yahoo! in Barcelona, Spain. €1.3K

AWARDS

- 2016 — WSDM2016 Outstanding Reviewer Award
- 2011 — ILPS Most Valuable Player of the Year Award
- 2010 — KION Award for best Dutch Artificial Intelligence Master thesis of the year 2010/2011

INVITED PARTICIPATION

- 2017 — 45th EPRA Meeting. Edinburgh, Scotland.
- 2015 — Google NLP PhD Summit. Zurich, Switzerland.
- 2015 — Science Europe Workshop: Towards networked Research Infrastructures for behavioral studies. Brussels, Belgium.
- 2011 — Dagstuhl Seminar 11421 on Foundations of Distributed Data Management. Germany.

SELECTED TALKS

A curated selection from my [full talks list](#).

2026

- [Zomerschool Bèta in Bestuur & Beleid](#). *Bèta in Bestuur & Beleid - Zomerschool 2026*. Kasteel Spelderholt, The Netherlands. *Sep 6*.
- [Machine Law for Human Life](#). *Rules as Code Conference*. The Hague, The Netherlands. *Mar 11*.
- [RegelRecht en wetten impact analyse](#). *Demodag Digitale Overheid*. Fokker Terminal, The Hague, The Netherlands. *Feb 12*.

2025

- [How to make Government and Rule Execution more effective using AI and where not to use AI](#). *The Hague Tech*. The Hague, The Netherlands. *Oct 14*.
- [Prediction is Power, Also in the Public Sector](#). *AI in Authority Symposium*. CognAC. *May 16*.

2024

- [The Watchdog and the Government Exploring Transparency Models for Public Sector Algorithms](#). *ACM FAccT*. Rio de Janeiro, Brazil. *Jun 4*.
- [Meten is Weten: Benchmarks voor Generatieve AI](#). *Launch event vision on Generative AI*. Den Haag, The Netherlands. *Jan 18*.

2023

- [AI in an Ivory Tower](#). *ICAI Townhall*. remote. *Oct 12*.

2020

- [Personalizing News](#). *Cross Media Cafe*. Hilversum, The Netherlands. *Feb 11*.

2019

- [Personalized Push Notifications](#). *Hogeschool Rotterdam / Applied ML*. *Feb 12*.

2018

- [Filter bubbles](#). *Jonge Democraten*. Amsterdam, The Netherlands. *Oct 23*.

2017

- [Digital Consciousness](#). *Sign of Time #14*. Pakhuis de Zwijger, Amsterdam, The Netherlands. *Mar 27*.

2016

- [Search and Recommendations at Blendle](#). *Radboud University*. Nijmegen, The Netherlands. *Nov 7*.

2015

- [Predicting Search Satisfaction Metrics with Interleaved Comparisons](#). *Beer&Tech, Criteo*. Paris, France. *Oct 28*.
- [Living Labs for Search](#). *Workshop: Towards networked Research Infrastructures for behavioral studies*. Brussels, Belgium. *May 7*.

2013

- [Reusing Historical Interaction Data for Faster Online Learning to Rank for IR](#). *IR group of the University of Glasgow*. Glasgow, Scotland, UK. *Mar 10*.

IN THE PRESS

A selection of media coverage; see [press](#) for the full list.

- 2020 — *Cross Media Cafe* interview on personalised push at DPG Media, [Mediaperspectives](#).
- 2019 — *Personalized news: matchmaker for online media or ethical minefield?*, [Vrij Nederland](#).
- 2018 — *Algoritmes: Moeten journalisten vrezen voor hun toekomst?*, [Villamedia](#).

- 2017 — *Zij weten precies wat jouw voorkeuren zijn*, NRC Next.
- 2016 — *Datawetenschap in de journalistiek*, Nieuwe Journalistiek (interview by Catrien Spijkerman).
- 2014 — *Grotere universiteit is daarom nog niet beter*, Trouw (opinion article).

SELECTED PUBLICATIONS

I have published 54 peer-reviewed scholarly articles, including full papers at major information retrieval venues such as ECIR, CIKM, WSDM, and SIGIR with acceptance rates as low as 10%. According to [Google Scholar](#), my articles have received over 1735 citations; my h-index is 22. Below is a curated selection; see [publications](#) for the full list.

2026

SOFTWARE SKILLS

Programming, Scripting, Markup

Python (fluent); Bash, C, C++, C#, Java, JavaScript, SWI-Prolog, MatLab (experienced)

Data & Ops

Kafka, Spark, Hadoop, Kubernetes, Git, Jupyter

Databases

ElasticSearch, Redis, MySQL, eXist-db, MongoDB

Machine Learning

scikit-learn, PyTorch, SVM Light, Spark MLlib

Testing

BDD Cucumber, python-doctests

OPEN SOURCE

- [Claude-threads](#) — Brings Claude Code into team chat (Mattermost, Slack); live-streamed AI pair programming with per-thread sessions.
- [peerpressure](#) — Social digital-detox app using peer accountability to keep a focus group on task; real-time app blocking.
- [RegelRecht](#) — Dutch government exploration into machine-executable legislation; NRML rule format, execution engines, AI converter, simulation.
- [Algorithm Management Toolkit \(AMT\)](#) — Governance platform for algorithmic systems in the Dutch government; bookkeeping, technical validation, ethical assessment, transparency reporting.
- [Living Labs](#) — RESTful API for the Living Labs for IR Evaluation (LL4IR / CLEF lab) letting researchers evaluate rankers on real users of real search engines.
- [Lerot: an Online Learning to Rank Framework](#) — Framework for running online learning-to-rank experiments for information retrieval; described in a CIKM'13 workshop paper.

LANGUAGES

- **Dutch** — native
- **English** — fluent (technical and conversational)
- **German** — basic (speaking, reading, writing)

INTERESTS

Sports. Rowing (athlete in a freshmen eight that practiced daily; coach of an eight that practiced five times a week), speed skating, running, cycling, hiking.

Travel. In 2003 and 2004 I traveled around India, Nepal, and Tibet for 11 months. In 2007 I cycled 5000 km from Amsterdam to Turkey in about two months. I still like to travel to remote places and try to go on a long cycling trip every year.
